

## Wholesale Information

The Nature's Creations group creates superb natural jewelry using shapes and inspiration from Nature. Our designs have delighted fine arts & crafts patrons for years. Managing Designer, Dennis Ray, recently updated the selection of work available to galleries and shops on a wholesale basis.

We offer a line of "Nature's Impressions". Select shapes from the "Natures Creations" group are cast in bronze or other metals. Every subtle nuance from the original design is captured in metal then hand finish with vibrant colors or precious metals. It takes over twenty different steps to form the natural impression into wearable art. These consistent shapes are moderately priced in a variety of designs that are available as pins as well as earrings.

We also offer our "Natural Jewelry & Art". These pieces are all original one-of-a-kind creations. We capture shapes from nature in copper without harming the original template (leaf or branch) that remains intact inside. This work is more suited for Fine Craft or Gallery style shops. The wearable art can be matched up to the earrings mentioned above to create sets. Ordering this work is more complicated due to the fact that all items are unique and the items can be seasonal.

## Ordering Details

Each Nature's Impression item comes on a black display card. Separate description cards may be requested. Gift boxes and velvet pouches are available at an additional cost.

Nature's Creations Natural work comes boxed with a velvet pouch and a description card.
